

CPU600

Boasting tool-free installation and a sleek silhouette, the CPU600 offers convenient ergonomic access to ports and drives, and time-saving installation and removal for quick hardware upgrades and repairs. The under-desk track mount with 360-degree swivel provides easy CPU access while also protecting the unit from dirt, vacuums and other workplace hazards. Made predominantly of steel and 100% recycled aluminum, and containing 51% recycled content by weight, the CPU600 is 100% recyclable.

A highly ergonomic work environment is built around four primary tools—task chair, articulating keyboard/mouse support, adjustable monitor arm and task light—that work together to improve the health and comfort of computer users. The absence of any one of these four tools may impact the ergonomic benefits of the others, whereas additional components, such as CPU holders, can further improve the workstation's ergonomics. To better understand how the ergonomics leader can dramatically improve your workday with the right assessments, tools and training, contact your Humanscale representative.

Recognized by I.D. Magazine as one of the 10 "Best Companies" worldwide that help push design forward.

This brochure is printed on Utopia One X which is certified by Smartwood for strict FSC standards which promote environmentally appropriate, socially beneficial and economically viable management of the world's forests.

CPU555	CPU450	CPU300	CPU Dolly	FEATURES AND SPECIFICATIONS																																																								
<p>The CPU555 is the sturdiest CPU holder on the market. While its heavy-duty construction will easily accommodate oversized CPUs, it is equally at home protecting mini units from workplace hazards. A security option protects CPUs from theft or tampering.</p>	<p>The CPU450 offers a unique storage solution for the variety of CPUs found in today’s workplace. Its clever and flexible design accommodates horizontal and vertical CPUs of most any size, and it can either be direct- or track-mounted to horizontal or vertical surfaces.</p>	<p>Offering all the protection and features of the heavy-duty CPU555, the value-priced CPU300 is perfect for most small and mid-sized CPUs.</p>	<p>This clever design automatically adjusts to CPUs of different sizes. And the optional Pull Handle makes moving hardware from one location to another a snap. The CPU Dolly is the perfect choice for a stand-alone CPU holder.</p>	<table><tr><th>CPU600</th><th>CPU555</th><th>CPU450</th><th>CPU300</th><th>CPU Dolly</th></tr><tr><td><p>Adjusts to fit CPUs 3.5”
